Indicative data only, not intended for preparation of specifications	

Tips

Pod will dissolve in under 2 minutes. If some of the film remains this will not affect the performance of the product.

Storage

- Store in a cool dry place
- Keep doy pack sealed at all times and away from moisture.

Limitations

- Product may be incompatible with some surfaces. Test suitability on a small inconspicuous area first.
- Do not touch pods with wet hands.

Directions for Use

Do Not mix with other detergents or chemicals. Test suitability on a small inconspicuous area first.

- Drop one pod into empty bottle.
- Reseal the bag and store in a cool dry place. Do not touch pods with wet hands.
- Add approximately 500mL of hot tap water (not boiling).
- Screw on spray nozzle tightly.
- Shake for 30 seconds and watch your pod dissolve.
- Spray on surface and then wipe.
- For antibacterial effect: Spray on surface until thoroughly wet. Leave for 5 minutes before wiping.
- When you run out, refill again!

Safety Directions

- If medical advice is needed, have product label at hand.
- Keep out of reach of children.
- If poisoning occurs, contact a Doctor or Poisons Information Centre (Aus 131 126; NZ 0800 764 766).
- If swallowed, do NOT induce vomiting. Give a glass of water. Seek medical advice.
- EYE: If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.
- SKIN: If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If irritation occurs seek medical advice.

*E. coli and Staphylococcus aureus
