## Wash and Wax

---

### Description

Wash & Wax is a combination of strong detergent designed to remove dirt and road grime from vehicles, and a wax emulsion to simultaneously form a protective layer. It is supplied as a concentrate, which will provide up to 33 washes per bottle.

### Pack Size

Available in 1 Litre bottles

### Application

Suitable for use over the entire vehicle:

- Paintwork
- Glass & Polycarbonate
- Vinyl Roof
- Plastic & Rubber Trims
- Bumpers
- Wheels
- Tyres

### Features

- Cleans & shines in 1 step
- Cuts through dirt & road grime
- Powerful wetting & cleaning action
- Mild pH, so at the same time gentle on paintwork and hands
- Spotless, streak free finish

### Directions for Use:

- Hose excess dirt off vehicle to avoid consuming a lot of detergent.
- Add approx. 30mls detergent to 10 litre bucket and fill with water. High water pressure will increase foam. A more concentrated solution can be used as required.
- Apply on to vehicle surface with a sponge.
- Wash one section of vehicle at a time from the top down and hose off before solution dries.
- DO NOT use the detergent without diluting it first.
- DO NOT allow the detergent solution to dry on the vehicle surface. Hose off each section well before proceeding to the next.

### For Best Results:

- Wash car in shaded area
- After hosing off detergent, dry vehicle by wiping over with a chamois.

### Consider the Environment

Wash car on grassed area and avoid run-off into storm water drains.
